

Around The Town

Inez Walker is on her vacation.

W. F. Abels, from the Bill Williams, is ill in Kingman.

H. C. Newell is in Los Angeles this week.

W. D. Crabtree of the Big Sandy, was a visitor here this week.

Mrs. S. S. Stark is ill with the tonsillitis.

Jimmy Martinez is now in the Navy training at the Great Lakes Training Station.

T. E. Pollock president of the Arizona Central Bank, spent Monday in Kingman on business.

Scotty Stewart and Ross Blakely went on a duck hunting trip to the river Thursday.

Nell Short, from Long Beach, who visited Miss James this week, left for her home Friday morning.

Earl Joder is building a four room bungalow on his lots in the Metcalfe Addition.

C. B. Wilson, prominent attorney of Flagstaff, spent Wednesday in Kingman on business.

Mr. and Mrs. Roy Borden are back in Kingman after having spent several months at Fresno, California.

Joe Miller has been laid up several days with a bad case of blood poisoning in the left hand.

S. E. Penny, engineer at the Kingman Consolidated, is recovering from a bone-break in his heel.

H. C. Risum was called to Whittier this week by the serious illness of his brother.

P. S. Horner, son of Mr. and Mrs. H. L. Horner of Kingman, is now with the Kingman Drug Company.

Elia Baughman is recovering from an attack of appendicitis. It is thought it will not be necessary to operate.

A. Tallifero, assistant Santa Fe land commissioner, is in Kingman for a few days attending to business matters for his department.

The Mohave County High School Athletic association is planning a dance for Christmas at the Odd Fellows Hall.

Mrs. Greeley Clack and small daughters, Betty and Olive Jane, are back in Kingman after a visit of several weeks in Kansas.

Melvin George has moved to Oatman where he will assist in running the thriving butcher shop of George & Olson.

Major Mensch arrived here yesterday from his home in San Diego. He will spend several days here before his return to the coast.

Mrs. O. W. Gildow left for Pasadena Thursday evening after receiving word that her mother was seriously ill. Her mother's illness is due to injuries from a fall some time ago.

Kenneth Manship received a bad cut on his head this week when he fell from the seat of a truck. Several stitches were taken and the little fellow is now getting along nicely.

Sheriff W. P. Mahoney returned Wednesday night from Prescott where he was called to testify in a couple of automobile theft cases before the Federal Court.

A. M. Cook received word this week that his son, Arno, was the only one out of twelve to pass an examination in the navy. He will soon be assigned to a ship at Newport News.

LIVESTOCK AND RANGES ARIZONA-NEW MEXICO

Fairweather and mild temperature have been favorable for stock in all parts of the State, so the Weather Bureau reports in its weekly bulletin. Practically all stock are now on winter range and where it has not been grazed during the summer it is reported as being good to excellent. In the Pinedale section branding and steer gathering are over. Shipments from the Pinto section are about over; remaining stock are in good condition; the range is fair and the water supply abundant. The ground is entirely devoid of snow in the Grand Canyon and Williams districts and range conditions prevail in the Nogales and Douglas sections and stock are holding up well. Owing to an absence of rain in the Safford and Thatcher sections the range is generally poor and stock only fair. Generally, however, the major grazing areas are in good condition and stock present a satisfactory appearance.

"Whatever became of young Bumpkins? He used to say if he ever got into a thing he'd be running it in a week. Big success, I suppose."

"Well, he kept his word. He's an elevator boy."

YUCCA

No, we are not dead since the election, but we frankly admit we are feeling somewhat flabbergasted.

Mrs. Chas. Dees was in recently from the McCracken Mines for a short visit at home.

The Rudys returned from a fortnight's visit at Prescott in order to be here at election time.

Mrs. Walker, mother of Mrs. Jane is visiting at her daughter's, Mrs. Farrell at Keolans Rancho.

Our school under the efficient care of Miss Foster is making excellent progress.

We have a new S. F. Agent, Mr. Freese and family. We hope they like us.

The Buck Mt. Mining project having closed for the present the Smith family are back in school.

The Antler has resumed work and several men are employed taking out ore and shipping.

Chas. Bly has been absent from home a good bit lately on official business.

Mrs. W. M. Lynch of Walnut Creek has spent the last fortnight visiting friends in Kingman.

The Heath Cattle Co. are gathering cattle preparatory to making a shipment to Los Angeles. They expect to have them ready about the 20th inst.

Mr. Bradshaw of the San Francisco Mines has recently returned from a trip to Los Angeles. Mrs. Bradshaw did not return, but will visit friends there for sometime.

Mr. and Mrs. Barney have moved into their own home. It was formerly owned by Mr. Hunt and purchased by the Barneys from Mr. Chas. Bly, administrator of Mr. Hunt's estate.

Yucca folks are all upset over the tragic death of Mr. Elliott at Kingman. The wife and daughters have the sympathy of all, as Mr. Elliott was known to be a good husband and father.

Billy Munds' pleasant smile is even more pleasant these days. A new son is the source of all this good fellowship. The friends of the Munds family, and that means everyone, extend congratulations.

The recent rains have been of untold benefit to the cowman as the weather being warm, browse and grass are both taking on new life. It was certainly a timely gift for cattle were in great need of better feed.

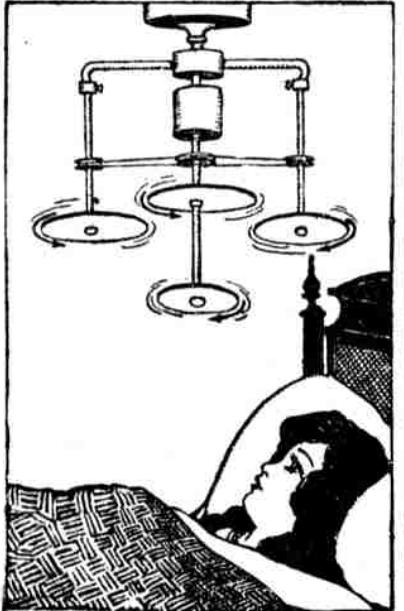

There is a great plenty of coyotes everywhere this year, and cattlemen report the loss of a good many calves, which it is thought they have killed. It seems to us the old-time bounty was some real use in ridding the country of these marauders.

"SURE CURE" FOR INSOMNIA

Englishman Asserts That the Watching of Revolving Disks Will Bring Quick Relief.

With the high cost of living getting higher every day the average person has been unable to indulge in such a soothing solace as sleep and forget his troubles in uninterrupted slumber. But there is hope for victims of insomnia.

Along comes an ingenious Englishman, James Bray of Acton road, London, who is the inventor of a simple

The Moving Plates Are Said to Produce Slumber in Five Minutes.

device which he says "will jolly well bring slumber to sleepless eyes" and is a sure cure for any case of insomnia. Mr. Bray's device for banishing sleeplessness consists of an arrangement of disks revolving in opposite directions, to be hung above the bed. The inventor says the mere watching of the moving plates brings slumber inside of five minutes.

After running 40 minutes the machine stops automatically and shuts off the light in the room.—From the Indianapolis Star.

MINER WANT ADS ARE BUSINESS WINNERS

WORKS WITHOUT A BATTERY

Ingenious Flashlight Evolved by the Germans During the Closing Days of the War.

When the Germans could get no more batteries for pocket flashlights they invented a flashlight that needed no battery, and this was used extensively by officers in the army in the last year of the war. A few of these ingenious things reached New York recently as samples, a manufacturer desiring to know whether there would be a sale for them in America.

Instead of a battery to supply the electric current to the lamp, there is a dynamo. This is set in motion by pulling a chord which, through a train of cog-wheels and a coiled mainspring, starts an armature spinning between six coils, thus producing the electric current that serves the lamp. Each downward pull of the cord produces enough electricity for five seconds.

Batteryless Flashlight is Operated by a Cord.

The apparatus is not much bigger than a shoe-polish box and much the same shape; it is hung by a cord from the neck, the operating cord hanging below in a position convenient for pulling.

The mechanism is inclosed in a tin box, painted gray. The lid is easily removable, but is watertight. Every time the cord is pulled the spring returns it instantly to its position of rest, so that one can have a steady light by keeping on pulling the cord.

The mechanism is strongly made, and there seems no reason why it should not last indefinitely. It is not quite so convenient as a flashlight with a battery, but it has the advantage over this of containing no essential part that must constantly be renewed and that has a habit of giving out just when it is impossible to renew and when it is urgently needed.—New York World.

STRANGERS OR COMPANIONS?

There is a natural affinity between pay-envelopes and Bank-books. If encouraged, the relationship becomes wholesome and enriching. If neglected, the results are often distressing. Time most accurately attests the cost of such neglect.

THE TEST

Are the contents of your pay-envelope swelling the pages of your bank-book, or the bank-books of others? That is the important question; you alone can answer it.

MINER WANT ADS. BRING RESULTS

Ten Days in the Desert—and still have Fresh Milk!

Such a thing can happen to you if you have a package of Klim Powdered Milk and a canteen of water with you.

Klim IS Milk—rich, pure, and fresh—in powder form. Nothing is changed—only the water is removed. Milk is $\frac{7}{8}$ water and $\frac{1}{8}$ solids.

K-L-I-M—Klim is Milk with the water removed.

M-I-L-K—Milk is Klim with the water replaced.

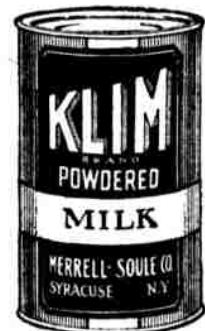

At any time, in any place, you can have fresh, sweet milk in abundance by simply adding water to Klim.

Spell it backwards

KLIM

BRAND

POWDERED MILK

Klim has no fear of hot days or cold ones—of damp days or dry ones. You need no ice to keep Klim—it does not sour. It does not freeze in winter.

Klim comes in two forms: Klim Powdered Whole Milk (full cream), for the baby—for drinking, for cereals and coffee; and Klim Powdered Skimmed Milk, for all cooking purposes. Klim is advocated by eminent physicians and leading food authorities.

Know what it is to have fresh milk, no matter if you are thousands of miles from a milk supply. Know the convenience—the quality—the economy—and the advantages of using Klim. Get a supply today.

Klim is on sale at Selected Stores. There is a store near you. Write us for list.
